- Developed **full-stack MERN applications** with RESTful API design, JWT authentication, and responsive React.js front-ends with Node.js/Express.js server-side logic
- Deployed applications via **Vercel and Netlify** using Git version control and modern CI/CD practices

PROJECTS

Real-Time CV Editor | *React.js, Quill, Tailwind, Motion* | [Live Demo](#) 2024 – 2025

- Architected and built a **scalable real-time CV/resume editor** enabling users to dynamically edit and preview resumes with instant formatting and content updates
- Developed **multiple professional resume templates** with responsive layouts and seamless UX across all screen sizes
- Collaborated with UX designers through an iterative design process to ensure consistent cross-device experience

SociPro Social Media Growth Chrome Extension | *React.js, Tailwind CSS, Local Storage* 2025

- Published an **all-in-one social media growth Chrome extension** with bookmark management, smart productivity tools, and a responsive popup UI using **Manifest V3**, background service workers, and content scripts
- Implemented **persistent Local Storage** for stateful user preferences across browser sessions without a backend

Git Branch Manager Chrome Extension | *React.js, Tailwind CSS, Local Storage* 2025

- Built a **developer-productivity Chrome extension** for managing Git branches with one-click copy for `git checkout -b / git switch -c` commands and branch naming convention enforcement
- Distributed on the **Chrome Web Store** with Manifest V3 standards; persisted branch history via **Chrome Local Storage API**

Chandigarh Info | *React.js, Tailwind CSS, Node.js, Express.js, MongoDB* | [Live Demo](#) 2024

- Developed a **full-stack web app** with interactive sliders, contact form validation, and **JWT-based user authentication** for a personalized, secure experience
